CONSTITUTING THE NASSAU COUNTY ADMINISTRATIVE CODE,
AUTHORIZING THE NASSAU COUNTY DEPARTMENT OF HEALTH TO
REQUIRE HOSPITALS TO REPORT ON POLICIES AND AMOUNT OF
CHARITY CARE PROVIDED AND REQUIRING PATIENT NOTIFICATION OF
POLICIES ON CHARITY CARE.

WHEREAS the Nassau County Legislature realizes a need for better accountability and notification of charity care provided to indigent persons by hospitals located within Nassau County; and

WHEREAS §9-20.0 of the Nassau County Administrative Code authorizes the county Board of Health to formulate, promulgate, adopt and publish rules, regulations, orders and directions for the security of life and health in the county health district which shall not be inconsistent with the state sanitary code; now, therefore

BE IT ENACTED by the Nassau County Legislature as Follows:

Section 1. A new Title F, entitled Charitable Medical Care, is added to the Nassau County Administrative Code to read as follows:

TITLE F.
CHARITABLE MEDICAL CARE

§9-23.0 Legislative Intent. The Nassau County Legislature recognizes the importance of providing charity medical care to indigent persons who would otherwise be left untreated. The legislature further finds that it is the responsibility of all hospitals within the County to provide proper medical treatment to **indigent persons**. Many of these hospitals are not for profit and have the obligation to provide charity care in exchange for favorable tax treatment by the government.

It is essential that on an ongoing basis, the Nassau County Department of Health evaluate the need for charity care in the county and the level of care that is being provided to indigent persons by hospitals within Nassau County. In order for the County to be able to monitor this care, the county needs information from hospitals with regard to their policies on the availability, accessibility, and criteria for providing charity care. The County further needs information concerning the amount of charity care provided to indigent persons by each hospital in order to better monitor the care provided to indigent persons and to fashion an appropriate response to unmet needs for charity care, including the recommendation of budgetary, regulatory or other action at the State and Federal levels.

To maximize the access to charity care within the community and to enhance the health of the public by informing individuals of the availability of charity care, it shall be the policy of the County of Nassau that each hospital notify every patient of its charity care policy. Such notice shall include visually prominent multilingual postings explaining the hospital's policy on charity care. It shall also be the policy of the County of Nassau to encourage hospitals, when practicable, to verbally notify patients at the time of admission as to the

availability of charity care and the process for applying or qualifying for such care.
